high-quality results every time.”

Paul really gets to know his clients personally and treats each project as if it's his own personal building, his strong empathy to people's needs and understanding of the family dynamic enabling him to make suggestions that makes their lives easier.

“Our company has been working with Fitz Consulting for a few years,” says Laszlo Meszaros from Euromaster Painting.

“We feel proud to be involved with him and it was a pleasure to see how fantastic this Fendalton project turned out. We hope everybody loves the result as much as we do. We completed the drywall stopping, interior and exterior painting. The luxurious, beautiful wallpaper was also applied by us. Our company specialises in spray painting and we strongly believe that we can create the best quality coatings for your home or commercial building.

“Paul turns clients into friends which speaks volumes of his character, work ethic, ability to always pick up the phone for any question big or small and, of course, the excellent finished project.”

Fitz Consulting is very active in the commercial strengthening and fitout arena as well, with projects in the CBD and outlying industrial areas. Currently, he is bringing back to life the ‘City Church’ building on Manchester Street, fitting out a boutique gym and three other warehouse/office buildings, each at separate locations.

Paul's knowledge of build prices and how to provide the best deal for his clients, as well as his ability to get his hands dirty getting things across the line faster and more smoothly, is an asset to any project. Paul and his team of experts started this project with the EQC dispute and followed it all the way through to Code of Compliance.

AN EXCEPTIONAL FENDALTON RENOVATION

By Nicholas Henare

Fitz Consulting, a boutique project management company owned and operated by Paul Fitzsimmons, has recently completed a major renovation of a 1940s Fendalton home.

The company brought its expertise and a range of talented teams together to provide its client with a truly outstanding finished product.

KOBE Construction worked closely with Fitz Consulting on the Fendalton renovation, carrying out all the general carpentry and construction of the new extension and remodelling of the existing structure.

“We have a very diverse workstream

which has enabled the Kobe team to develop a high level of expertise throughout all building and general construction envelopes,” Blu from Kobe Construction says.

“Whether we are building executive architectural homes, fitting out restaurants and cafés or offices, repairing and upgrading commercial buildings or just renovating, we have the skills, experience, and product knowledge to deliver bespoke
